Problem Definition & Design Thinking

Empathy Map

Ideation & BrainStorming map

RESULT:

a) Login page

b) Signup page

c) News page

ADVANTAGES & DISADVANTAGES:

Advantages:

- Automatically Updated based on api
- Faster Interaction
- Easily understandable
- Authenticate the users

Disadvantages:

- We can't interact with multiple languages
- We got only a headlines and a little description. Can't read the news briefly.
- All newses are listed single column. Can't separate it.

APPLICATIONS

- House
- Institutions
- Schools
- Colleges
- Press
- Hospitals
- media

Project Report Template

CONCLUSION

Finally we got a app with news perfectly. This App will run successfully and update a news automatically.

FUTURE SCOPE

- Multi language support
- Separate a news base on Types
